**CONSTRUCTION ACTIVITIES:** Crews will work overnight to pour concrete in the stem and soffit of the Cajalco Rd Bridge. This construction activity will take place over two weeks, on Wednesday and the following Tuesday.

### What to expect:\*

- Please be advised, work may be noisy due to construction equipment moving on- and off-site, equipment back up alarms, and other construction related noise.
- Temporary lighting will be used to illuminate areas around the work zone.
- Specialized cooling technique will be used during the placement of the concrete into the bridge and white clouds may appear over the bridge.
